

Here's what others are saying:

"You can't go wrong in learning what this largely volunteer group is doing."

Chris Quinn, Editor, Cleveland Plain Dealer

"... gives Tocqueville reason to smile."

Tucker Askew, Fortune

"... no organization I admire more."

James Druckman, Northwestern University

"... like nothing I've seen before."

Jonathan Rauch, Brookings Institution

"... an extraordinary group called Braver Angels."

U.S. Rep. Dean Phillips (D-MN)

"There's one group that gives me hope. Braver Angels."

Gov. Spencer Cox (R-Utah)

"All of us feel different and some feel immeasurably changed."

Kate Peters, 2024 convention delegate

4% of Americans

say our political system "is working extremely or very well."

86% say politicians

are "more focused on fighting each other than on solving problems."

Source: Pew Research Center

Tired of this mess? *We are.*

We're America's largest, fastest-growing organization bringing together conservatives, progressives, and independents on equal terms to clarify differences, find common ground, and work together to save our country.

The Model

We offer Americans **opportunities and skills** to cross the partisan divide.

We reach millions with **public arguments and stories** that ignite hope.

We use grassroots strength to cause **institutional change** in politics and education.

Because no single organization can do the job, we're
building a national movement bigger than Braver Angels.

The Evidence

To date, **10 studies** and **two national awards** show that our work gets results.

One study finds that Braver Angels "**significantly reduces polarization**" and another finds "**clear evidence of reduced polarization.**"

Another study finds that, after our events, **86%** say they understand the other side better ... **71%** feel better understood by the other side ... and **81%** say they're better prepared to work together.

"... the best we have seen."

“Can we achieve a truly transformative scale? I left the Convention appreciating how Braver Angels is rising to the challenge. I certainly wouldn’t bet against them.”

Daniel Stid, Editor, The Art of Association
